Protect what
matters most to you!

Personal Insurance

AUTO INSURANCE

It is comforting to know you're protected with reliable auto insurance. It may be a financial burden if your not and you have an accident or hit an animal. Auto insurance provides protection in case of an accident, vandalism, theft, animals, natural disasters, liability and medical coverage. There is a discount when placing your autos and homeowners with the same company.

HIGH RISK AUTO INSURANCE

This is for the DUI's, the reckless driving, if you would happen to have too many speeding tickets, claims or the many various other violations. We have many different companies that we can choose from and we have one that is right for you. We have immediate SR 22 available.

HOMEOWNERS

We have many types of protection for your dwelling to cover losses from incidents like fire, storms and vandalism. It also protects your possessions, provides liability coverage plus many other items. There is also coverage for liability and medical payments if someone were to get hurt on your property. You may also be eligible for a multi-policy discount when your home and auto are written with the same company.

RENTERS

Renters Insurance is a form of homeowner's insurance. Renter's coverage can cover belongings for anyone and is an inexpensive way to cover these items. Do you have a college student? These students usually have coverage under their parents' homeowner insurance policy, but if a student moves into an apartment there is no coverage for 30 days. Another concern is there theft coverage? The student's belongings must be kept in the living quarters, so if a student has (for example) mechanic tools and left them at the school shop room and they were stolen, there would be no coverage if the student didn't have a renter's policy.

MOBILE HOMES

There are very many unique aspects of mobile home living and we can offer you dependable insurance policies that are right for you. Your mobile home is your home and you want it protected. Mobile home policies can be similar to a homeowner policy.

PERSONAL UMBRELLA

This type of policy extends your liability coverage by adding a layer of protection over your basic limits you have on your vehicle and property/home policies.

- Vehicles and motorcycle (personal & recreational)
- Primary residences
- Seasonal homes
- Most types of watercraft
- Family rental dwellings
- Farms & Ranches
- Condos

With a condominium you can enjoy the convenience of apartment living along with the tax benefits of owning a home. Though your Association may provide protection for property in areas of the building that you share with neighbors, you are responsible for your personal belongings and well-being. We can offer the right protection for you. You can hardly wait to take your snowmobile for a ride after that first snowfall, so the last thing you want to worry about is insurance. Whether you own a basic snowmobile or a deluxe model, we have many different options for you.
